You will only be able to submit further information to the Examination if the Inspector invites you to do so.

Focused change ref. NF 50 alters section 7.3.36 in relation to the change of use of B1-B8 use classes for alternative uses. Whilst the inclusion of 'impact of reduction of job opportunities for the local community' is reasonable it is our client's view that this section still does not fully cover the necessary considerations. Further to the listed considerations in justifying the change of use, a key consideration should also be the potential benefits of any proposed alternative uses. Without this consideration of the benefits balanced against any perceived negative impacts this policy cannot be conducive to sustainable development. Furthermore the current wording also excludes the consideration of possible benefits for the local economy and employment opportunities arising from any change of use. This oversight ignores the potential scenario whereby a change of B1-B8 uses to alternative uses may have a positive net impact for employment and the local economy.

The existing Peblig Mill Industrial Estate in Caernarfon; south of the A4085 (Llanbeblig Road) is a prime example of where these benefits would apply and contribute towards sustainable development. The site, under the ownership of First Investments Ltd (FIL) is an outdated industrial estate housing B class uses but currently operates with 44% vacancy across the estate floorspace. This high proportion of vacant floorspace demonstrates the difficulty estates like this have whereby there is a need for significant investment/redevelopment to bring them up to modern standards capable of attracting new businesses onto the site. This issue is highlighted in the Economic and Employment Land Review Study (2012) which forms part of the Council's evidence base making the following observations about the industrial estate;

'Vacant land located on existing industrial estate in Caernarfon. Existing buildings are currently in a state of disrepair and would need to be either repaired/demolished to accommodate new development. Viability for employment development is highly likely to prevent redevelopment in the short to medium term. Potential for residential development exists on the site.'

Given this assessment FIL have sought to develop a plan to bring redevelopment to the site that would bring the employment elements up to date through enabling development in the form of alternative uses such as residential also on site. As such FIL has been in discussions with Gwynedd Council over recent years with a view to progressing a planning application for an alternative (non-employment) use on part of the site in order to support/help deliver the aforementioned redevelopment. In order to assist with these discussions a Flood Risk Assessment has been prepared and FIL's consultants are entering discussions with NRW regarding this. This would allow for appropriate locating of uses such as residential whilst offering more attractive employment space which would be capable of maintaining vastly improved occupancy rates and employment benefits.

Therefore FIL considers that within the context of the Development Plan as it is currently published the Peblig Mill Industrial Estate will continue to underperform and present a negative demonstration of the plans resistance to sustainable development. As such it is vital that the plan allows for consideration of these economic and wider benefits and to acknowledge the important role enabling development can have in modernising the area's employment spaces and making efficient use of brownfield land. If these factors were included the plan could then be considered to be positively prepared and in support of sustainable development.

Further to the listed justifications for change of use, a key consideration should be the benefits of any proposed alternative uses. Without this consideration of the benefits balanced against negative impacts this policy does not promote sustainable development. The current wording excludes the consideration of possible benefits for the local economy and employment opportunities arising from any change of use. This ignores the potential scenario whereby a change of B1-B8 to alternative uses may have a positive net impact for employment and the local economy. A prime example of this scenario is Peblig Mill Industrial Estate's requirement for enabling development.

Gwaith yr Arolygydd yw ystyried a yw'r Cynllun yn bodloni gofynion gweithdrefnol ac a yw'n gadarn.</p> <p>Gellir ystyried 'Cadarn' yn y cyd-destun hwn o fewn ei ystyr arferol o 'dangos barnu da' a 'gellir ymddiried yn ddo'. Y cwestiynau neu'r 'profion' y bydd yr Arolygydd yn eu hystyried wrth benderfynu a yw'r Cynllun yn gadarn yw:</p> <ol style="list-style-type: none"> 1. A yw'r cynllun yn ffitio? (h.y. a yw'n gyson â chynlluniau eraill?) 2. A yw'r cynllun yn briodol? (h.y. a yw'n briodol ar gyfer yr ardal yng ngoleuni'r dystiolaeth?) 3. A fydd y cynllun yn cyflawni? (h.y. a yw'n debygol o fod yn effeithiol?) 	<p><i>The Joint Anglesey and Gwynedd Local Development Plan (LDP) will be examined by an independent Inspector appointed by the Welsh Government. It is the Inspector's job to consider whether the Plan meets procedural requirements and whether it is sound.</i></p> <p><i>'Sound' may be considered in this context within its ordinary meaning of 'showing good judgement' and 'able to be trusted'. The questions or 'tests' which the Inspector will consider in deciding whether the Plan is sound are:</i></p> <ol style="list-style-type: none"> <i>1. Does the plan fit? (i.e. is it consistent with other plans?)</i> <i>2. Is the plan appropriate? (i.e. is it appropriate for the area in the light of the evidence?)</i> <i>3. Will the plan deliver? (i.e. is it likely to be effective?)</i>
