4. If your response to 3 above exceeds 100 words, please provide a summary (no more than 100 words).

We strongly object to the removal of the larger settlements such as Llanddeusant and Llanfairynghornwy from the list of clusters within this policy. There is a lack of consistency in terms of sizes of clusters within this policy. Large clusters such as Llanddeusant and Llanfairynghornwy have been removed however, a row of 16 houses in Hendre Hywel is included within the policy. We believe that the Council haven't properly considered all of the factors which contribute to what makes a settlement.

The removal of the larger settlements from the list of clusters will weaken those communities both socially and environmentally resulting in an increase in deprivation in those areas. It is identified within National Planning Policy that there is a requirement to provide a mix of affordable and market housing within settlements in order to create and maintain sustainable communities. The loss of housing developments within these settlements will result in the deterioration in deprivation of these settlements. Therefore, it is vital that these settlements are included within this policy in order to achieve sustainable rural communities and tackle deprivation.

Policy TAI 18: Housing in Clusters

- 1.1 We strongly object to the removal of the larger settlements such as Llanddeusant and Llanfairynghornwy from the list of clusters within this policy. These settlements are sizeable villages which have been removed from this policy. The Council haven't properly considered what is a settlement.
- 1.2 There is a lack of consistency in terms of sizes of clusters within this policy. Large clusters such as Llanddeusant and Llanfairynghornwy have been removed however, a row of 16 houses in Hendre Hywel is included within the policy. We believe that the Council haven't properly considered all of the factors which contribute to what makes a settlement.
- 1.3 It is recognised in paragraph 10.5 of The Wales Spatial Plan 2008 Update that *"Accommodating appropriate development in smaller settlements and rural areas is vital for supporting the development of more rural communities."*
- 1.4 In achieving sustainable rural communities and tackling deprivation delivering good quality housing is vital. The importance of housing as an economic driver was made clear by the Minister for Housing and Regeneration in July 2013 when he stated that:
- 'Building more homes will not only meet growing housing need, but also generate growth and jobs, provide work to help people out of poverty and ameliorate the effects of the bedroom tax. The private and public sectors must be enabled and supported to play a full role in building more homes. I have looked carefully at all the tools available to me, including regulations, policy and funding, and am today announcing a package of measures which together should increase the supply of new homes across Wales. The actions set out in this statement represent the first phase of action in this area and demonstrates the priority I accord to increasing the supply of housing.'*
- 1.5 It is considered that the removal of the larger settlements from the list of clusters will weaken those communities both socially and environmentally resulting in an increase in deprivation in those areas. It is identified within National Planning Policy that there is a requirement to provide a mix of affordable and market housing within settlements in order to create and maintain sustainable communities.
- 1.6 The loss of housing developments within these settlements will result in the deterioration in deprivation of these settlements. Therefore, it is vital that these

settlements are included within this policy in order to achieve sustainable rural communities and tackle deprivation.
