To keep individuals receiving care and support in Gwynedd safe ensuring that new staff receive the best possible induction in the difficult COVID-19 circumstances is more important than ever.

If you don't already have arrangements in place we can help you by giving you access to Gwynedd's eLearning social care EMERGENCY INDUCTION.

We can create an e. Learning account for your organisation/service which will allow staff to complete an e. Learning programme but there will be no individual outcome record.

We stress that this programme is a crisis response only
