

# Our Area Regeneration Framework

## LOCAL REGENERATION PLAN

### BANGOR AREA

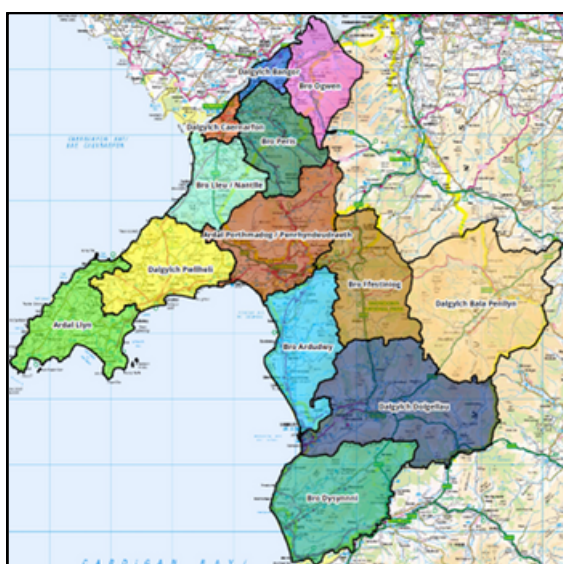

April 2025

In 2021, Cyngor Gwynedd Regeneration Board agreed to develop a new Regeneration Framework. The intention of the Framework is to ensure that proactive steps are in place to ensure collaboration to improve the areas economically, environmentally, socially and culturally.

As part of that Framework, the county has been divided into 13 Local Regeneration Areas and an action plan has been created for each of the areas. This is the action plan for the Bangor area.

Local Regeneration Areas: Bangor Area, Dyffryn Ogwen Area, Bro Peris Area, Caernarfon Area, Bro Lleu / Nantlle Area, Pen Llŷn Area, Pwllheli Area, Porthmadog / Penrhyndeudraeth Area, Bro Ffestiniog Area, Bro Ardudwy Area, Bala Penllyn Area, Dolgellau Area and Tywyn & Bro Dysynni Area

'Regeneration' has been defined as an intentional effort to improve areas economically, environmentally, socially or culturally. The Framework also recognises a key role for communities to identify local priorities; and the contribution of local organisations in developing action plans.

Following an engagement process in 2022 and listening to the opinions of local people, the framework includes the vision and priorities of each community for the future. With working in partnership at the core of the arrangements it is hoped that it will provide a clear path to steps that can bring positive change to communities that will change lives for the better. The aim of the Framework is therefore to be a guide to investment locally as well as influence policy decisions in all areas - from health and education to transport and planning.

# 'OUR AREA' ENGAGEMENT

03

The aim of the Our Area (Ardal Ni) campaign was to hold a conversation with local communities what is important to residents and how they would like to see their area develop over the next 10-15 years

Consultation and engagement with each community has been a key part of drawing up the action plans. There were three stages to the consultation held under the banner of 'Ardal Ni 2035'

- An initial discussion was held with town and community councils together with local organisations, groups and councillors receiving 12 responses on ideas about what should be the local priorities for the area in the period up to 2035. These responses were used as a basis for the second stage of wider engagement with the public.
- A public engagement campaign was organised to give residents the opportunity to voice their opinion regarding the challenges facing their area, what is important to them and what developments they want to see in their area over the next 10 to 15 years. 344 responses were received from the Bangor Area through an online and paper questionnaire
- Following public sessions, workshops were held with organisations to discuss action plans focusing on the issues and priorities that had been identified locally.

By engaging with organizations and stakeholders, various projects were identified throughout the city that would contribute to enhancing Bangor's facilities and offerings.

## Focus area - Bangor City Center

Following feedback from public consultations, the City Center was established as a focus area for the Placemaking Plan. The emphasis was on improving the high street and surrounding areas, which would then lead to benefits for the city as a whole.
