Pam bod angen i Gyngor Gwynedd ad-drefnu'r Gwasanaeth Llyfrgell?

Mae'n rhaid i Wasanaeth Llyfrgell Gwynedd:

- Wneud arbedion ariannol sylweddol fel pob gwasanaeth arall o fewn y Cyngor - o leiaf 25% o'i chyllideb erbyn 2017/18,
 - Baratoi at y dyfodol digidol,
 - Ddarparu gwasanaeth safonol i bob rhan o'r gymdeithas ond gyda llai o arian,
 - Gyrraedd disgwyliadau Safonau Llyfrgelloedd Cyhoeddus Cymru.

Y ddarpariaeth

Yn ddibynol ar y cyllid sydd ar gael, mae'r Cyngor yn anelu i ateb y gofynion statudol drwy barhau i gynnal

- 9 prif lyfrgell yn Abermaw, Bangor, Blaenau Ffestiniog, Caernarfon, Dolgellau, Porthmadog, Pwllheli, Tywyn, Y Bala;
- Llyfrgelloedd Teithiol
- Gwasanaeth Teithiol i'r Cartref
- Llyfrgell Deithiol i Blant a Phobl Ifanc

Cwestiynau trafod

- Os bydd rhaid torri gwerth diwrnod o oriau mae'r llyfrgell ar agor pryd fuasai'n oddefol?
- Os bydd rhaid torri faint mae'r gwasanaeth yn buddsoddi yn y stoc beth buasai'n oddefol i'r gwasanaeth wario llai arno? Pa effaith gall hwn ei gael?
- Os bydd y Gwasanaeth yn gosod peiriant hunan-sganio pa effaith gall hwn ei gael?
- Unrhyw awgrymiadau?

Why does Gwynedd Council need to reorganise the Library Service?

Gwynedd Library Service has to:

- make substantial savings in line with other Council services - at least 25% of its budget by 2017/18,
 - prepare for the digital future,
 - provide a service of a high standard to every part of society with less money,
 - I meet the Welsh Public Libraries Standards.

The Provision

Depending on the funding available, the Council aims to meet statutory requirements by continuing to maintain...

- 9 main libraries at Barmouth, Bangor, Blaenau Ffestiniog, Caernarfon, Dolgellau, Porthmadog, Pwllheli, Tywyn, Y Bala.
- a Mobile Library
- a Home Library Service
- a Mobile Library and Information service for young people.

Empty flip-charts with questions for discussion:

- If a day’s worth of opening hours has to be cut when would be tolerable?
- If the Service has to cut how much it invests in stock items what would be tolerable? What effect could this have?
- If the service installs a self-scanning machine what effect could this have?
- Any suggestions?
