**Councilor Nia Wyn Jeffreys**  
Cabinet Member for Corporate Support

When you think about what local government does, what is the first thing that comes to your mind: Tax collection, litter picking or running libraries perhaps? If one of these answers comes first, you are absolutely right, but you may not be aware of the range of services and other functions that local government undertakes. Every day, Gwynedd Council provides a wide range of services across our County including educating our children, caring for our people, cleaning our streets, looking after our well-being and promoting our local businesses so that they can succeed. The main thing that enables us as a Council to succeed in doing this above all is the staff who work here. The Council is full of people who have chosen to work here because they want to help the people of Gwynedd and make a difference to the communities and the environment in which we live.
