Nodiadau

1. Mae'r diffiniad o'r 'safon ystafelloedd gwely' yn trafod ystafelloedd gwely ac ystafelloedd na ellir byw ynddynt â llai na 50 troedfedd sgwâr o arwynebedd llawr. Ni all y cyfrifiad ystyried yr amgylchiadau hyn drwy'r cwestiwn a ofynnir.

Diffiniadau

Maint cyfartalog aelwyd

Mae maint cyfartalog aelwydydd mewn ardal yn cyfateb i gyfanswm nifer y preswylwyr arferol sy'n byw mewn aelwydydd yn yr ardal honno wedi'i rhannu â chyfanswm nifer yr aelwydydd yn yr ardal sydd ag un preswylwydd arferol o leiaf.

Ni fydd ymwelydd sy'n aros mewn cyfeiriad yn cyfrannu at faint yr aelwyd hwnnw am ei fod yn cael ei gyfrif yn yr aelwyd y mae'n preswyllo ynddo fel arfer.

Nifer gyfartalog yr ystafelloedd gwely fesul aelwyd

Mae nifer gyfartalog yr ystafelloedd gwely fesul aelwyd ar gyfer unrhyw ardal yn cyfateb i gyfanswm nifer yr ystafelloedd gwely mewn aelwydydd yn yr ardal wedi'i rhannu â nifer yr aelwydydd yn yr ardal.

Nifer gyfartalog yr ystafelloedd fesul aelwyd

Mae nifer gyfartalog yr ystafelloedd fesul aelwyd ar gyfer unrhyw ardal yn cyfateb i gyfanswm nifer yr ystafelloedd mewn aelwydydd yn yr ardal wedi'i rhannu â nifer yr aelwyd yn yr ardal.

Notes

1. The 'bedroom standard' definition discusses uninhabitable bedrooms and rooms with less than 50 square feet floor space. The census is unable to take account of these circumstances through the question that it asks.

Definitions

Average household size

The average household size for an area is equal to the total number of usual residents living in households in that area divided by the total number of households in the area that have at least one usual resident.

Visitors staying at an address do not contribute to that household's size because they are counted in the household of their place of usual residence.

Average number of bedrooms per household

The average number of bedrooms per household for any area is equal to the total number of bedrooms in households in the area divided by the number of households in the area.

Average number of rooms per household

The average number of rooms per household for any area is equal to the total number of rooms in households in the area divided by the number of households in the area.

Ystafelloedd gwely

Nifer yr ystafelloedd gwely mewn cartref.

Diffinnir ystafell wely fel unrhyw ystafell y bwriadwyd ei defnyddio fel ystafell wely pan gafodd yr eiddo ei adeiladu, neu unrhyw ystafell sydd wedi cael ei thro'i'n barhaol i'w defnyddio fel ystafell wely. Mae hefyd yn cynnwys pob ystafell y bwriadwyd ei defnyddio fel ystafell wely hyd yn oed os nad yw'n cael ei defnyddio fel ystafell wely ar adeg y Cyfrifiad.

Ystyri'r bod gan fflatiau un ystafell a fflatiau stiwdio un ystafell wely.

Gwres canolog

Nodir bod gan gartref wres canolog os yw ar gael mewn rhai ystafelloedd neu ym mhob ystafell (p'un a gaiff ei ddefnyddio ai peidio). Dosberthir gwres canolog yn ôl ei fath, er enghraifft un neu ragor o'r mathau - nwy, trydan (gan gynnwys gwresogydion stôr), olew, tanwydd solet (er enghraifft coed neu lo) neu fathau eraill (gan gynnwys solar, nwy petrolewm hylifedig (LPG) neu nwy potel arall).

Aelwyd

Diffinnir aelwyd fel un person sy'n byw ar ei ben ei hun neu grŵp o bobl (nad ydynt o reidrwydd yn perthyn i'w gilydd) sy'n byw yn yr un cyfeiriad ac sy'n rhannu cyfleusterol coginio ac ystafell fyw neu lolfa neu le bwyta.

Rhaid i aelwyd gynnwys o leiaf un person sy'n byw fel arfer yn y cyfeiriad. Nid yw grŵp o breswylwyr byrdymor sy'n cyd-fyw â'i gilydd na grŵp o bobl mewn cyfeiriad lle mai dim ond ymwelwyr sy'n aros yn cael eu cyfrif fel aelwyd.

Maint aelwydydd

Mae maint aelwyd yn cyfateb i nifer y preswylwyr arferol yn yr aelwyd. Nid yw ymwelwyr sy'n aros mewn cyfeiriad yn cyfrannu at faint yr aelwyd hwnnw am eu bod yn cael eu cyfrif yn yr aelwyd y maent yn byw yn ddiwrth fel arfer.

Dim ond i aelwydydd ag un preswylydd arferol o leiaf y mae maint aelwyd yn gymwys.

Cyfradd ddeiliadaeth

Mae cyfradd ddeiliadaeth yn mesur p'un a yw aelwyd wedi'i orboblogi neu wedi'i danfeddiannu. Caiff y gyfradd ddeiliadaeth ei mesur mewn dwy ffordd - mae un yn seiliedig ar nifer yr ystafelloedd mewn aelwyd ac mae'r llall yn seiliedig ar nifer yr ystafelloedd gwely. Defnyddir oedrannau aelodau'r aelwyd a'u cydberthnasau i bennu nifer yr ystafelloedd/ystafelloedd gwely sydd eu hangen, ar sail fformiwlau safonol. Caiff nifer yr ystafelloedd/ystafelloedd gwely sydd eu hangen ei thynnu oddi wrth nifer yr ystafelloedd/ystafelloedd gwely yn yr aelwyd er mwyn pennu'r gyfradd ddeiliadaeth. Mae cyfradd ddeiliadaeth o -1 yn awgrymu bod gan aelwyd un ystafell/ystafell wely yn llai na'r hyn sydd ei angen, tra bod +1 yn awgrymu bod ganddo un ystafell/ystafell wely yn fwy na'r gofyniad safonol.

Bedrooms

The number of bedrooms in a household's accommodation.

A bedroom is defined as any room that was intended to be used as a bedroom when the property was built, or any room that has been permanently converted for use as a bedroom. It also includes all rooms intended for use as a bedroom even if not being used as a bedroom at the time of the Census.

Bedsits and studio flats are counted as having one bedroom.

Central heating

A household's accommodation is classified as having central heating if it is present in some or all rooms (whether used or not). Central heating is classified by type, for example one or more of the types - gas, electric (including storage heaters), oil, solid fuel (for example wood or coal) or other types (including solar, Liquefied Petroleum Gas (LPG) or other bottled gas).

Household

A household is defined as one person living alone, or a group of people (not necessarily related) living at the same address who share cooking facilities and share a living room or sitting room or dining area

A household must contain at least one person whose place of usual residence is at the address. A group of short-term residents living together is not classified as a household, and neither is a group of people at an address where only visitors are staying.

Household size

The size of a household is equal to the number of usual residents in the household. Visitors staying at an address do not contribute to that household's size because they are counted in the household of their place of usual residence.

Household size is only applicable to household spaces with at least one usual resident.

Occupancy rating

Occupancy rating provides a measure of whether a household's accommodation is overcrowded or under occupied. There are two measures of occupancy rating, one based on the number of rooms in a household's accommodation, and one based on the number of bedrooms. The ages of the household members and their relationships to each other are used to derive the number of rooms/bedrooms they require, based on a standard formula. The number of rooms/bedrooms required is subtracted from the number of rooms/bedrooms in the household's accommodation to obtain the occupancy rating. An occupancy rating of -1 implies that a household has one fewer room/bedroom than required, whereas +1 implies that they have one more room/bedroom than the standard requirement.

Ystafelloedd

Nifer yr ystafelloedd mewn aelwyd.

Nid yw'r diffiniad o ystafell yn cynnwys ystafelloedd ymolchi, toledau, cynteddau neu bennau grisiau, neu ystafelloedd sydd ond at ddiben storio. Caiff pob ystafell arall, er enghraifft, ceginau, ystafelloedd byw, ystafelloedd iwtliti, stydis ac ystafelloedd gwydr eu cyrif.

Os oes dwy ystafell wedi'u trosi'n un fe'u cyfrifir yn un ystafell. Ni chaiff ystafelloedd a renmir rhwng nifer o aelwydydd, er enghraifft cegin a renmir, eu cyrif.

Rooms

The number of rooms in a household's accommodation.

The definition of a room does not include bathrooms, toilets, halls or landings, or rooms that can only be used for storage. All other rooms, for example, kitchens, living rooms, bedrooms, utility rooms, studies and conservatories are counted.

If two rooms have been converted into one they are counted as one room. Rooms shared between a number of households, for example a shared kitchen, are not counted.
