### Action Point S15/PG1 – Review of Beaumares Town Centre

***Review the boundaries of Beaumares Town Centre to ensure that they include shops and commercial properties that form the shopping/ commercial core. Record the work in a short paper and introduce a Matters Arising Change, if required.***

Following the hearing session a review of the properties opposite Beaumares' Market Square was undertaken to determine their uses. It is noted that the majority of the properties are commercial therefore the Councils' agree that they form part of the retail/commercial area of the town. It is also noted that the review identified two retail premises on Castle Street that were not included in the Town Centre boundary. On this basis it is suggested that the Town Centre boundary for Beaumares is changed in accordance with what is shown in the map in Appendix 1 of this paper.
