

GWYNEDD COUNCIL
HOUSING LAND MONITORING STATEMENT
2017

October 2017

CONTENTS

1. Introduction

2. Housing Land Supply

Appendix 1 - Site Schedules

Appendix 2 - Past Completions Data

Appendix 3 - Previous Land Supply Data

1. Introduction

- 1.1 Gwynedd Council and the Isle of Anglesey County Council adopted a Joint Local Development Plan in July 2017. However at the base date of the annual Joint Housing Land Availability Study period i.e. 1st April, 2017, there wasn't an up-to-date adopted development plan for Gwynedd i.e. the plan period of the adopted development plan (The Gwynedd Unitary Development Plan) had expired. As such Technical Advice Note (TAN) 1, *Joint Housing Land Availability Studies* advises that "local planning authorities that do not have either an adopted LDP or UDP will be unable to demonstrate whether or not they have a 5-year housing land supply and effectively will be considered not to have a 5-year supply".
- 1.2 For 2017 therefore, the Gwynedd Local Planning Authority is unable to undertake a Joint Housing Land Availability Study (JHLAS). As the Joint Local Development Plan (with the Isle of Anglesey County Council) has now been adopted, a formal JHLAS study will be undertaken from 2018 onwards. It is noted that as part of the evidence base for the Joint Local Development Plan, the Councils' prepared a Housing Trajectory that showed that there is a 5 year housing land supply throughout the Plan period based upon the new housing sites that are allocated in the Plan and the anticipated supply from windfall sites.
- 1.3 TAN 1 states that local planning authorities without an up-to-date JHLAS should nevertheless carry out an objective assessment of their housing land supply on an annual basis. Whilst this assessment will not be subject to the formal JHLAS process or carry the same weight for planning purposes as a formal study, it will be beneficial in terms of providing an evidence base for planning considerations more generally.
- 1.4 The purpose of this document is to summarise the latest housing completions data and provide information on what is currently included within the supply. This has followed guidance contained within TAN 1 but does not include any calculations in terms of whether there is a 5 year land supply or not given that there is no housing provision target for the 2017 JHLAS period. The document however does include an estimate of the number of units that are likely to be completed in the next 5 years. Consultation with applicants, landowners and developers has been of assistance to establish this figure.
- 1.5 The following stakeholders were consulted between 18th August and 8th September 2017 in relation to the draft version of the Housing Land Monitoring Statement, specifically in terms of the site schedule. These were based on the members of the former Study Group for the JHLAS.

- The Home Builders Federation
- Dŵr Cymru Welsh Water
- Natural Resources Wales
- North Wales Housing Association
- Grŵp Cynefin
- Cartrefi Cymunedol Gwynedd
- North West Wales Rural Housing Enabler Service

1.6 Following the consultation, agreement was reached for all sites noted within the site schedules.

2. Housing Land Supply

2.1 The land supply comprises sites with outline or full planning permission and the remaining site allocations from the adopted development plan at the JHLAS base date (i.e. Gwynedd Unitary Development Plan), categorised as prescribed in TAN1.

2.2 The site schedule is provided at Appendix 1.

2.3 Large and Small Site¹ Completions:

Completions 1st April 2016 – 31st March 2017	Large Site Completions	Small Site Completions
276	218	58

¹ Large sites - 5 or more housing units
Small sites – Less than 5 housing units

Table 1: Identified Housing Land Supply (Large sites):

Gwynedd Housing Land Supply 1st April 2017 – 2022 (Large Sites)						
		5 year land supply		Beyond 5 years		
	Proposed Homes	1	2	3	4	Homes completed since last study
Private	2123	173	834	320	783	203
Public	127	0	14	61	52	0
Housing Associations	40	40	0	0	0	15
Total	2290	213	848	381	835	218

2.4 Five year land supply breakdown (i.e. Categories 1 and 2) – Large sites:

Private	1007
Public	14
Housing Association	40
Total	1061

2.5 **Small Site Supply** – The contribution from small sites of less than 5 dwellings is based on the completions for the last five years.

Table 2: Small site completions for previous 5 years

2012 - 13	2013 - 14	2014 - 15	2015 - 16	2016 - 17	Total
79	65	75	83	58	360

2.6 Therefore the overall **total 5 year land supply** (large + small sites) is: **1061 + 360 = 1421 units**

Appendix 1 – Site Schedules

2015-16	128	83	211
2016-17	218	58	276

Appendix 3 – Previous Land Supply Data (Large Sites)

Year	5 year supply - Number of homes (TAN 1 categories)			Number of years supply	Supply beyond 5 years - Number of homes	
TAN 1 categories 2013 and 2014						
	1	2	2*		3i	3ii
2013	73	1584	0	4.5	838	11
2014	121	1233	0	3.7	880	15
TAN 1 categories 2015-17						
	1	2			3	4
2015	139	1205		3.3	0	1038
2016	193	981		2.9	352	823
2017	213	848		-	381	835

TAN 1 categories 2013 and 2014 (Technical Advice Note 1 – adopted June 2006):

UC – Sites or the phases of sites, which are under construction (relating only to the area where building is in progress);

1 – Site or the phases of sites where development can commence immediately, and which are likely to be completed within the first year of the study period;

2 – Sites or the phases of sites where development cannot commence immediately, but where the constraint on development is likely to be removed in time for dwellings to be completed within 5 years;

2* - Sites which are capable of being developed within the 5 year period but which lie within the areas where market demand is such that development is unlikely to occur within 5 years;

3(i) – Sites or the phases of sites where development is unlikely within 5 years by virtue of major physical constraints or other constraints as may be agreed by the Group;

3(ii) – Sites or the phases of sites where development is unlikely to occur in the foreseeable future by virtue of major long term constraints.

TAN 1 categories 2015-2017 (Technical Advice Note 1 – adopted January 2015):

1 – Sites or the phases of sites which are under construction;

2 – Sites or the phases of sites where development either can commence immediately, or the constraint on development is likely to be removed so that there is reasonable time for dwellings to be completed within 5 years;

3 – Sites or phases of sites where the Study Group agree that it is not financially viable to develop the site due to market conditions, but which are otherwise free from constraints;

4 – Sites or the phases of sites where development is unlikely within 5 years by virtue of major physical constraints or other constraints as agreed by the Study Group.
