CYNGOR SIR  
YNY'S MON  
ISLE OF ANGLESEY  
COUNTY COUNCIL

Anglesey & Gwynedd Joint Local Development Plan

Mar 2016

## Schedule of Minor Changes

### Purpose

The following Schedule consists of minor changes to the Deposit version of the JLDP, which comprise factual and typographical changes. The minor changes have been arranged in Plan order with changes/additions to the text highlighted in **bold and underlined**. Where it is proposed to remove text it is shown with a ~~strikethrough~~.

As these represent minor changes to the Plan they are outside the scope of the Focused Changes public consultation and representations on these should not be made. The Minor Changes have been endorsed by members of the Joint Planning Policy Committee on 29 January, 2016. The document will form part of the Examination Library.

### Chapter 6: The Strategy

NB 1	6.19 & 6.20	1112, 873, 909	The Plan is informed by a range of assessments including the combined Sustainability Appraisal and Strategic Environmental Assessment, a Welsh Language Impact Assessment, Habitats Regulation <del>Assessment Appraisal</del> , and a Level 1 Strategic Flood Risk Assessment. It is considered that the viability of local provision within these Local Service Centres can be enhanced by being supported by a larger population within walking distance. Given Porthmadog's continued role as an Urban Service Centre there will still be those within Criccieth and Penrhyndeudraeth and surrounding villages that will need to travel to Porthmadog, for example for employment purposes, alternative shopping opportunities or banking. However, their journey will be shorter than a journey to the nearest alternative Urban Service Centres and the choice of Transport modes includes by bus and by train. Gwynedd Council is committed to re-evaluating the options for growth in Criccieth and Penrhyndeudraeth in	For correctness

			<p>the Plan's first review.</p> <p>In order to provide robust guidance to assess and determine planning applications each settlement is defined spatially. The Deposit Plan has defined development boundaries around the Sub-Regional Centre, Urban Service Centres, Local Service Centres, and <b>Service/ Local/ Coastal/ Rural</b> Villages. Clusters do not have settlement boundaries. Here development will be required to relate well to the existing built form, which will be shown on the Proposals Maps by colouring buildings that form their core. Development boundaries and clusters are drawn in order to:</p>

## CHAPTER 7.4: SUPPLY AND QUALITY OF HOUSING

Ref	Section	Rep. ID	Proposed Minor Change	Justification
<b>NB 11</b>	7.4.18	Council	<p>7.4.18 Criterion 4 refers to the effect on a residential area. The following datasets will be used to determine the proportion of properties not used as a ‘shared house’ as a percentage of all households. Data is included in Topic Paper 16 Student Accommodation. The data will be updated on a yearly basis to ensure that changes over time are captured and that the latest data can be used in determining planning applications. Applicants will need to take account of the current data on the date of their application. The Councils consider that non shared residential accommodation should not exceed 25% of residential properties in the electoral wards of Menai (Bangor) and Deiniol and 10% in the remaining wards in the Plan area.</p> <ul style="list-style-type: none"> <li>i. <b>NB 13</b>	Policy TAI7	Council	<b>(Applicable to Welsh version only)</b>	To ensure clarity.
<b>NB 14</b>	7.4.87 – 7.4.88	Council	<p>7.4.87 There is currently one authorised local authority owned residential Gypsy site at Llandygai, near Bangor with capacity for 7 pitches. There is also a tolerated Travellers site near Pentraeth, where <del>11 caravans are sited.</del> <b>4 households live.</b> It is considered that this site <del>offers</del> is unsatisfactory and therefore should be improved to provide improved living conditions or be relocated to a more appropriate site.</p> <p>7.4.88 Under the Housing (Wales) Act 2014 A local housing authority must, in each review period, carry out an assessment of the accommodation needs of Gypsies and Travellers residing in or resorting to its area. Local authorities were required to assess the accommodation needs of Gypsy and Traveller families under Sections 101 Housing Act <b>2004 Housing (Wales Act 2014)</b>. Where there is an assessment of unmet need for Gypsy and Traveller accommodation in the area authorities should identify sufficient sites in local development plans to ensure that the identified pitch requirement for residential and transit use can be met</p>	To demonstrate that the Plan has full regard to emerging data and evidence and the latest legislation.
<b>NB 15</b>	7.4.93	Council	7.3.93 The policy proposes that sites that are allocated or have <del>have permanent</del> planning permission for Gypsy and Traveller <b>permanent</b> residential use, or are granted such permission in the future, will be safeguarded solely for Gypsy and Traveller use. This will ensure that	To ensure clarity
