Enw / Name: **Ellesmere Sand & Gravel Company Limited [2686]**

Rhan: **POLISI AT4**

Section: **POLICY AT4**

Math / Type: **Gwrthwynebu / Object**

Crynodeb o'r Sylw:

Oherwydd eu hunion natur, gall rhai safleoedd cloddio mwynau gael rhyw gymaint o effaith ar safleoedd archeolegol nad ydynt wedi'u dynodi. Ystyrir bod y polisi'n rhy anhylaw ac nid yw'r geiriau 'gallai' a 'posib' yn derfynol. Awgrymir fod y polisi yn cael ei ddileu ac yn cael ei gynnwys drwy benderfyniad yn ystod y broses cyn cyflwyno cais a'r rhestr leol sydd yn gofyn am asesiad archaeolegol ble mae diddordeb archaeolegol wedi ei leoli

Representation Summary:

Mineral extraction sites by their very nature may have some affect on non-designated archaeological sites. The policy is considered too unwieldy, the words 'may' and 'potential' are not definitive.

Would suggest the policy is deleted and is covered by pre-application decision and the local list to requires and archaeological assessment where defined archaeological interest are located and/or cover by planning condition.

Sylw Llawn / Full Representation:

Mineral extraction sites by their very nature may have some affect on non-designated archaeological sites. The policy is considered too unwieldy, the words 'may' and 'potential' are not definitive.

Newid(iadau) i'r Cynllun

Awgrymir fod y polisi yn cael ei ddileu ac yn cael ei gynnwys drwy benderfyniad yn ystod y broses cyn cyflwy

Change(s) to the Plan

Would suggest the policy is deleted and is covered by pre-application decision and the local list to requires and archaeological assessment where defined archaeological interest are located and/or cover by planning condition.

Crynodeb o'r Sylw:

Lle nad ystyrir bod gweddillion o bwysigrwydd cenedlaethol ac nid ystyrir bod eu gwarchodaeth ('diogelwch in situ') yn briodol (gan yr Awdurdod Cynllunio Lleol a'u hymgyngorwyr archeolegol) yna lliniaru amgen (diogelu trwy gofnod') fydd y camau priodol i'w cymryd yn unol â chylchlythyr 60/96. Ar ôl cloddio, rhaid sicrhau y caiff y canlyniadau eu cyhoeddi a'u dosbarthu gyda phwyslais ar fanteision i'r cyhoedd, yn enwedig felly fanteision addysgol i'r gymuned leol. Rhaid i'r holl waith fod yn unol â'r safonau a nodir gan Sefydliad Siartredig yr Archeolegwyr.

Representation Summary:

where the remains are not considered to be of national importance and their protection ('preservation in situ') is not considered appropriate (by the LPA and their archaeological advisors) then alternative mitigation ('preservation by record') will be the appropriate course of action in accordance with circular 60/96. Post-excavation, publication and dissemination of results must be ensured with an emphasis on public benefit, particularly educational benefits to the local community. All work should be in accordance with the standards set by the Chartered Institute for Archaeologists

Crynodeb o'r Sylw:

Mae angen ystyried posibilrwydd archeolegol. Mae modd rhagdybio posibilrwydd archeolegol yn hytrach nac ymateb yn unig i safleoedd archeolegol y gwyddys amdanynt. Er enghraifft, mae posibilrwydd i ddatblygiadau graddfa fwy ddadlennu gwybodaeth archeolegol newydd ar draws tirweddau lle gallai'r sylfaen wybodaeth gyfredol fod yn brin. Mewn amgylchiadau fel hyn, hyd yn oed lle nad oes fawr o dystiolaeth ar y pryd, efallai bydd gofyn cael gwerthusiad archeolegol i sefydlu dystiolaeth sylfaenol. At hyn, mae'r adnodd archeolegol yn ddeinamig ac mae nifer, lleoliad a dosbarthiad safleoedd archeolegol yn cynyddu trwy'r adeg.

Representation Summary:

Archaeological potential needs to be considered. Archaeological potential can often be inferred rather than just reacting to known archaeological sites. for example larger scale developments have the potential to reveal new archaeological information across landscapes where the current knowledge base might be limited. In these circumstances, even where there is limited existing evidence, archaeological evaluation may be required to establish an evidence baseline. Also, the archaeological resource is dynamic and the number, location, distribution of archaeological sites increases all the time.
