From the 14th of July, 2014 Gwynedd Council will be restricting the types of vehicles allowed to use the Recycling Centres.

**TRADE WASTE**
The sites cannot accept trade waste, which must be disposed of using a licensed facility meeting Duty of Care requirements.

Depositing trade waste at the Recycling Centres is a criminal offence under the Environmental Protection Act 1990 and could result in a £50,000 fine and/or two years imprisonment.

The sites are for the Gwynedd Council residents to dispose of only household wastes. If you are carrying out renovation or construction work, a skip should be hired as this sort of waste is not classified as household waste. A number of local and national companies offer waste management services or for further advice contact Natural Resources Wales on 0300 065 3000.

**SORTED**
It is possible you may be asked to open black bags and sort waste for recycling before disposing any material in the household waste skip. To save time it’s worth sorting your recyclables and waste before visiting the recycling centre.

Further information is available by contacting Gwynedd Council on 01766 771000 or recycling@gwynedd.gov.uk. Questions about the intention to prohibit commercial vehicles should be put to Gwynedd Council and not the Recycling Centre staff.

**NO COMMERCIAL VEHICLES**

**Vehicles NOT allowed in to the Recycling Centres**

- Luton box vans
- Long wheel base vans
- Flat bed and tipper trucks
- Tractors
- Trailers with more than one axle
- Any agricultural vehicle

**THANK YOU FOR YOUR CO-OPERATION**
