## 1. Executive Summary

### **Our vision:**

'The people of North Wales can live safe, equal and violence-free lives, in communities without abuse or exploitation'.

North Wales is working together to tackle all aspects of Violence Against Women, Domestic Abuse, Sexual Violence, Modern Slavery, Human Trafficking, Organised Immigration Crime and Exploitation.

The North Wales Vulnerability and Exploitation Board represents all statutory and non-statutory partners across the region, committed to a collaborative, joined-up approach to addressing all areas of vulnerability and exploitation.

The North Wales Vulnerability and Exploitation Strategy 2021-2024 involves a multi-agency approach to addressing vulnerability and exploitation in North Wales. Both Violence Against Women Domestic Abuse and Sexual Violence (VAWDASV) and Modern Slavery agendas are aligned to the four Strategic Aims:

PREPARE PREVENT PROTECT PURSUE

The Strategy enables and supports innovative practices and ideas, as well as supporting existing services, to provide a cohesive package of support for victims, survivors and their families. The Strategy also ensures perpetrators are held to account and supports communities to promote an ethos of safety, equality and well-being.

## 2. Introduction

The North Wales Violence Against Women, Domestic Abuse and Sexual Abuse Strategic Board met for the last time in Spring 2020, due to a complete reform of the Strategic Board structure across North Wales. Following a substantial amount of work and consultation, it was decided that the VAWDASV agenda would joint with Modern Slavery, Human trafficking, Organise Immigration Crime and other areas of criminal exploitation.

A new Strategy has been developed and is in the final stages of ratification. A copy of the Strategy will be published and shared with Welsh Government and other partners within the next few months.

The Vulnerability and Exploitation strategy clearly shows that North Wales is committed to tackling exploitation of the most vulnerable in our society and is a priority for all partners within the statutory and non-statutory sectors.

The vulnerability and Exploitation Board is a strategic network of The North Wales Vulnerability and Exploitation Partnership Board is a strategic network of agencies aligned across all six Local Authority Areas of North Wales (Anglesey, Gwynedd, Conwy, Denbighshire, Flintshire and Wrexham), comprising statutory, non-statutory and third sector organisations.

The purpose of the strategic partnership is to generate a coordinated, efficient and productive response to tackle Violence Against Women, Domestic Abuse and Sexual Violence (VAWDASV) and Modern Slavery, Human Trafficking, Organised Immigration Crime and Exploitation. We will achieve this by:

- Working collaboratively to ensure that individuals within our communities who may be vulnerable and/or subject to exploitation are identified and heard in order to achieve the best outcome for them.
- Building trust and confidence through working alongside and within our communities.

The Vulnerability and Exploitation Board is designed to capture and guide the partnership work, as well as overseeing the delivery of the strategy objectives, by all partnership agencies, under the Regional Strategy as well as relevant national legislation.

The current Strategy encompasses the work already being done under the Violence Against Women, Domestic Abuse and Sexual Violence agenda, as well as other areas of exploitation. It does not dilute the previous work done under the direction of the VAWDASV Board, but rather supports us to consider the agenda from a more holistic perspective, developing new areas of collaboration, both from a delivery aspect, as well as investigating new opportunities for joint commissioning.

### 3. Governance

The North Wales Vulnerability and Exploitation Partnership Board will be accountable for the strategy and delivery of the objectives. Chaired by the Chief Executive, North Wales Office of the Police and Crime Commissioner, the Strategic Partnership Board provides oversight, direction and support to local partners to ensure a collaborative approach. The Board meet on a quarterly basis to monitor and evaluate progression towards the Strategic Aims and Objectives as outlined within the Delivery Plan and Actions. Whilst all six Local Authority areas and partner agencies across North Wales are responsible for setting their own action plans in response to their localities' specific needs, representatives are encouraged to update and report on their progress and barriers to achieving success, commensurate with the Strategic Delivery Plan.

The Vulnerability and Exploitation Partnership Board Chair meets with counterparts from the Board, Safeguarding Boards (Adults/Children), Contest Board, Justice Board and Regional Leadership Board to ensure alignment of work streams.

#### **4. Specific areas of progress during 2020/21**

2020/21 was a year of serious concern, disruption and unforeseen pressure for all partners, particularly those providing front line support for those most at risk of abuse and exploitation. Our specialist services have seen a massive 40-50% increase in referrals over this period, but have had to balance this additional work with the constraints of the pandemic, local restrictions and full lockdowns.

2020/21 saw a massive increase in financial support for the specialist sector, which was welcomed, but this came with its own issues, as the majority of the additional funding was for emergency provision, rather than sustainable, long term projects.

Despite the many barriers in place, we did make some significant steps forward especially in the areas below:

1. Capital funding for disbursed units
2. Remote evidence facilities based within specialist sector provision
3. Emergency (Covid related) equipment
4. Support and equipment for children and adults to access technology for support and social interaction
5. Training to upskill the specialist workforce
6. Specialist training to support staff with vicarious trauma and enhanced clinical supervision
7. Online provision in all areas of support
