BACKGROUND

Following the introduction of the Children and Young People Act 2008 local authorities are required to provide Short Breaks for disabled children. To this end relevant Regulations were introduced on 28 June 2012 noting that every authority in Wales should introduce a Short Break Statement by 27 September 2012 in order to provide families with information on the services that are available. The period between submitting the Regulations and the date of their publication was short and therefore it had not been possible to hold sufficient consultations with disabled children or their families. Firstly, we intend to submit this document and then follow up with a consultation with families and to review it as required.

WHAT IS THE PUPOSE OF A SHORT BREAK?

The purpose of a Short Break provision is to give families an opportunity to do what they would like to do without their disabled son or daughter. This could mean simple tasks such as grocery shopping or going out with the other children, a free weekend to enable families to catch up on their sleep, or to attend a special occasion.

As part of the Short Break the disabled child gains experiences such as taking part in leisure activities, attending groups or group activities or a night away from home.

WHO IS ELIGIBLE TO RECEIVE A SHORT BREAK?

Children are eligible to receive a Short Break in Gwynedd if they reach the threshold of Derwen – Integrated Team for Disabled Children, and that the assessments of the children and their families identifies their need for service.

Derwen works with disabled children who have:	Derwen does not offer a service to children:-

Illness or a mental health condition in addition to a disability.	With illness or mental health condition but who are not disabled.
Several significant developmental delays or severe delay to assess further.	Where there is a mild delay in an area of development e.g. speech and language or toileting.
Behavioural problems as well as significant developmental delay.	With behavioural problems where there is no significant developmental delay.
Significant sensory impairment e.g. hearing/sight which affects the child's ability to experience a full life.	With sensory impairment e.g. hearing/sight which has been dealt with successfully.
A disability or significant developmental delay where mainstream services are unable to meet their specialist needs.	Who have developmental delay and/or disability but where mainstream services meet their needs.
ADHD as well as a disability or significant developmental delay.	With ADHD but who are not disabled or have significant developmental delay.
A professional from another team who needs specialist assistance from Derwen to jointly assess or offer intervention.	Where the work of another team (e.g. the child protection investigation) is the primary focus and there is no need for further disability specialist assessment/intervention.

HOW TO DETERMINE THE NEED?

Short Break provision can be addressed under different levels, such as level 1 which is a general or preventative provision, level 2 where a service has been targeted and level 3 where there are complex and intense needs.

LEVEL	ASSESSMENT / ACCESS TO SERVICE	EXAMPLE OF SERVICES
1	Self-referral services without a needs assessment.	Breakfast or after-school clubs, the Urdd, Leisure Centre clubs or activities.
2	An initial assessment is required for Derwen and then a referral for service through one of the team's staff members, based on the assessment.	Specialist groups for disabled children and young people, Summer Activities, Holiday Activities, support to attend general services, Family Celebration Days.
3	Core assessment required and possibly an inclusive Short Break assessment by a member of the Derwen Team. As a result an application by the professional worker to the resources panel.	1 to 1 services, Direct Payments, Continuing Care package, overnight Short Break with Foster Carers.

EXAMPLES OF SHORT BREAK SERVICES IN GWYNEDD

Overnight Short Break provisions away from home are currently scarce in Gwynedd but there is a joint plan with the Education Department to develop a new specialist school in the south of the County with a residential Short Break provision attached to the school in the future.

In order to seek to respond to this shortage, Support Services have been developed as the main Short Break service within the County.

TRANSPORT TO ANY PROVISION

Parents / carers will usually transport their children to any activity or overnight Short Break. Where parents have a real difficulty to do this they can contact Derwen to discuss how to overcome this.

INFORMATION FOR DISABLED CHILDREN AND YOUNG PEOPLE

A CD of digital stories is available to borrow for disabled children and young people who are referred to the Support Services for the first time with examples of the experiences of other children included for them to see and hear.

There is also a booklet of pictures on the 'Amser Ni' scheme available.

For every child that stays overnight with foster carers the review procedure for children in accommodation is implemented with statutory reviews every six months which includes the foster carer and the parent, and the child or young person if they wish.

A service level agreement with Carers Outreach also provides an opportunity to feed any observations back for the service to act upon where possible.

QUALITY ASSURANCE

Every effort is made to ensure the quality of our provision and we invite observations from disabled children or young people and their parents / carers at any time.

Questionnaires are always provided to ask for opinions on the holiday activities and the Family Celebration Days.
