

	Option 1	Option 2	Option 3	Option 4	Option 5
	Transfer the entire Felinwnda catchment area to the catchment area of Ysgol Llandwrog	Transfer the entire Felinwnda catchment area to the catchment area of Ysgol Bontnewydd	Split the Felinwnda catchment area according to the houses that are geographically closest to Ysgol Llandwrog and Ysgol Bontnewydd	<i>Set the entire Felinwnda catchment area within Ysgol Llandwrog and Ysgol Bontnewydd catchment areas</i>	<i>Use a safe entrance to Lôn Las as the Bontnewydd catchment area boundary as an alternative way to think about the modern catchment area to comply with the objectives of the new school. Using the new A487 road as a boundary is a clear way to explain the catchment area boundaries.</i>
Summary of the consultees' observations	<p>Most of the respondents who responded to the consultation favoured Option 1, for reasons such as:</p> <ul style="list-style-type: none"> • It would "protect a small rural school by sending the children to Ysgol Llandwrog" • The strong connection that has existed over the last few years between Ysgol Felinwnda and Ysgol Llandwrog • It would ensure that the connection and the natural progression between Cylch Meithrin Dinas and Llanwnda and Ysgol Llandwrog will continue. • It would bring two similar catchment areas 	<p>The option to transfer the entire catchment area to the Ysgol Bontnewydd catchment area was favoured by one respondent. One respondent emphasised that most of the area's learners already attended Ysgol Bontnewydd and that was a pattern that had been established for years.</p> <p>Concern was expressed that this option would not ensure the viability of the Cylch, because a Cylch Meithrin already existed on the Ysgol Bontnewydd site.</p>	<p>Concern was expressed that Option 3 would not ensure the Cylch's sustainability (because a Cylch Meithrin already existed within the Ysgol Bontnewydd catchment area), and the financial and community side effect that this could have on the Centre.</p>	<p><i>"This option will ensure that the freedom to choose will remain, ensuring that the catchment area status continued to impact Ysgol Llandwrog and Ysgol Bontnewydd in an equal manner, and that the population of the Felinwnda catchment area will benefit from the stronger right for a place and the transport offer in relation to their chosen school. The comparatively small population of the Felinwnda catchment area, as well as the flexibility in terms of out-of-catchment area pupils' access to schools in Gwynedd, mean that there will not be a substantial impact in terms of being able to plan places where the Ysgol</i></p>	<p><i>"The development of the transport would be clearer, because most of the area will be able to follow a safe path to the school. It would ensure that a Cylch Meithrin is located within each catchment area. It would show Plaid Cymru's commitment to support rural schools. This option would approach 50% of dwellings transferring to either catchment areas. Arranging transport would be clearer for the county, as there would not be a need to arrange buses to Bontnewydd and, by encouraging children of the rural area to use the transport to Ysgol Llandwrog, the county</i></p>

	<p>together. Ysgol Felinwnda's current catchment area is a rural one, which would be similar to the sense and nature of Ysgol Llandwrog catchment area.</p> <ul style="list-style-type: none">• The option would favour and protect Cylch Meithrin Dinas and Llanwnda and Bro Llanwnda Centre best.			<p><i>Bontnewydd and Llandwrog catchment areas overlap. There is no legislative barrier for catchment areas to overlap."</i></p>	<p><i>would show that they are taking positive steps to reduce the traffic levels in the village, thus improving community safety and reducing carbon levels"</i></p>
